Employment History

September 23-Present — **Lecturer, Adjunct, BRAC University.** Department of Computer Science and Engineering (CSE) Script checking, invigilation, question making, teaching in Computer Architecture, Discrete Mathematics, Programming Language I, Data Communication, Digital Logic Design, Numerical Methods, Artificial Intelligence, Computer Graphics. Pre 1-thesis reviewer

February 24 – September 26 — **Former Lecturer,** Department of Computer Science and Engineering (CSE) **Northern University Bangladesh.** Script checking, invigilation, question making, teaching in Algorithm Analysis and Design, Theory of Computation, Discrete Mathematics, Operating Systems, Computer Graphics

December 21-May 23 — **Teaching Assistant, Contractual, BRAC University.** Department of Computer Science and Engineering (CSE) & (MNS) Assignment checking, assisting students in Digital Logic Design, Numerical Analysis, Linear Algebra and Fourier Analysis

Education

2019 – 2023 — **B.Sc in Computer Science & Engineering, BRAC University, CGPA: 3.86/4.00.**

2016 – 2018 — **Higher Secondary School Cirtificate, Barishal Govt. Women's College , GPA:4.33/5.00**

2014 – 2016 — **Secondary School Cirtificate,Barishal Govt. Girls' High School, GPA: 5/5.00**

Research Work

Published Conference

- Himi, S. T., Monalisa, N. T., Sultana, S., **Afrin, A.**, & Hasib, K. M. (2024). Automated exam script checking using zero-shot LLM and adaptive generative AI. In *2024 IEEE International Conference on Computing, Applications and Systems (COMPAS)*. IEEE. **DOI**
- **Afrin, A.**, Monalisa, N. T., Tasnim, S., Sultana, S., Shahriar, R., & Rhaman, M. K. (2025). AeroGuard: Intelligent UAV framework for fire and disaster management. In *2025 IEEE International Conference on Quantum Photonics, Artificial Intelligence, and Networking (QPAIN)*. IEEE. **DOI**
- Hasan, M. R., Setu, S. A., Himi, S. T., Sultana, S., **Afrin, A.**, Paul, S., & Monalisa, N. T. (2025). Unmasking AI bias in traditional prognosis models. In *2025 IEEE International Conference on Quantum Photonics, Artificial Intelligence, and Networking (QPAIN)*. IEEE. **DOI [Co-supervised]**
- Sultana, S., Bithi, S. A., Das, S., Ahammed, M. T., Islam, A., Chandra, P., & **Afrin, A.** (2025). Automated blood cell quantification for disease forecasting. In *2025 IEEE International Conference on Quantum Photonics, Artificial Intelligence, and Networking (QPAIN)*. IEEE. **DOI**
- Monalisa, N. T., Biswas, P., **Afrin, A.**, & Himi, S. T. (2026). TakaGuard: Mitigating fraud risks in Bangladesh's mobile financial services through BERT-based sentence classification. In *Proceedings of the International Conference on Intelligent Data Analysis and Applications (IDAA 2025)*. **DOI**

- Monalisa, N. T., Sultana, S., **Afrin, A.**, & Himi, S. T. (2026). A hierarchical age-aware framework for dental age estimation. In *2026 IEEE 2nd International Conference on Quantum Photonics, Artificial Intelligence & Networking (QPAIN)*. IEEE. **DOI**
- Shahriar, R., **Afrin, A.**, Himi, S. T., & Monalisa, N. T. (2026). LatentGW-RiskNet: A latent fingerprint–based autoencoder framework for three-class groundwater risk assessment. In *2026 IEEE 2nd International Conference on Quantum Photonics, Artificial Intelligence & Networking (QPAIN)*. IEEE. **DOI**
- **Afrin, A.**, Nahiduzzaman, M., Monalisa, N. T., & Himi, S. T. (2025). MangoLeafDTR: ResCANet for mango leaf disease detection with rule-based treatment recommendation. In *2025 IEEE International Women in Engineering (WIE) Conference on Electrical and Computer Engineering (WIECON-ECE)*. IEEE. **DOI**

Skills

Coding Expertise	Python, PHP, Java, C, SQL, XML, Latex, (Hackerrank, Leetcode & URI Online Judge)
Web Dev & Technologies	JavaScript, MERN, Django, MYSQL, Roboflow, Matlab, Raspberry Pi, Adobe Illustrator.

Selected Projects

2022 **Computer Network Project**
Developed and simulated a computer network infrastructure project using Cisco Packet Tracer, implementing VLANs to segment the network, improve security, and optimize traffic management. Utilized networking protocols and troubleshooting tools to test connectivity, ensure efficient data transmission, and maintain reliable network performance. Git

2024 **Online Learning App**
Developed a web-based online learning platform using the Django framework, designed to facilitate accessible digital education and streamline the learning experience. Implemented a structured platform for managing educational content and supporting seamless interaction between learners and course materials. Git

Achievements & Recognitions

Achievements

2023 Awarded for VC's list and Dean's list for four consecutive semester.
20-23 Merit based scholarship based on academic excellence.
2025 Reviewer, Human-Centric Intelligent Systems.
2024 Successfully completed the skill development courses from Bohubrihi (Django) & Ostad (MERN)
2022 Leadership & Volunteer, Senior Executive at BUCC, Secretary at BURT.
